**SUBJECT: Water Main Break Causes Low Water Pressure**

**BY: Amy Norris, Public Information Coordinator**

---

### **Miller Mall, Duluth Heights, and Piedmont Heights Experiencing Low Water Pressure**

City of Duluth crews are currently working on an apparent 16 inch water main break on Stanford Avenue in Duluth Heights. Many residents in the Airpark, Miller Mall, Duluth Heights and Piedmont Heights areas will experience very low water pressure until the main can be shut down and repaired. Crews will remain on the scene until the main can be repaired.
