Woodland Ave Road Work Rescheduled to November 7th

[Duluth, MN] - The City of Duluth is informing the public that the southbound lane of Woodland Ave between East 8th Street and Garden Street will be temporarily closed on Wednesday, November 7th, from 9 AM to 3 PM to install temporary bituminous road patch related to a previous utility repair project. The project was scheduled for today, November 5th, but wet conditions delayed the work. Southbound traffic on Woodland Ave can take East Kent Road or East 8th Street as detour routes. Northbound travel on Woodland Ave will be fully accessible. A permanent road patch will be installed next year.
