

## Executive Summary

### AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

#### 1. Introduction

The City of Duluth expects to receive about \$3,000,000 in funds from the U.S. Department of Housing and Urban Development (HUD). HUD provides three types of funds: Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG). CDBG funds support community development projects including affordable housing, public services, public facilities, and economic development. HOME funds support programs that create affordable housing for low-income households. ESG funds support projects that offer basic needs and housing stabilization services to community members experiencing or at risk of experiencing homelessness. Local organizations apply to the Community Development Program requesting these HUD funds for their projects.

The CD Committee reviews the applications and recommends funding amounts for the Community Development Program. The CD Committee holds public input sessions and comment periods regarding the funding recommendations and then make its final funding recommendations to the City Council.

#### 2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

Themes were developed from community input.

#### **Theme #1: Ensure all residents have access to necessary transportation and utility infrastructure.**

Priorities include:

- Improve streets and sidewalks, and address snow clearing, in ways that do not increase cost burdens on low-income property owners. Support multimodal transportation by improving access to transit, and adding transit amenities such as bus shelters and street lights. Invest in pedestrian and bicycle infrastructure, and implement ADA improvements in targeted

areas. Provide reasonable access to clean energy and improve energy efficiency to relieve energy burdens.

**Theme #2: Increase the supply of affordable, quality housing.**

Priorities include:

- Provide housing cost assistance to alleviate cost burdens. Increase the number of housing units in locations that are convenient for access to jobs and food. Provide a variety of unit types at all levels of affordability, aiming for mixed-income neighborhoods. Housing types to focus on include supportive housing, accessible housing, units for individuals, and senior housing. Improve quality and safety of housing, including enforcement of existing codes and rehab of older structures.

**Theme #3: Support thriving neighborhoods by addressing neighborhood issues and improving aesthetics.**

Priorities include:

- Identify solutions to homes that are condemned or vacant, in order to address neighborhood blight. Ensure neighborhoods have key amenities such as quality lighting, street trees, and public art. Collaborate with the police department, neighborhood groups, and others to ensure neighborhood safety. Increase waste receptacles and sharps containers in parks and public facilities.

**Theme #4: Build employment skills and opportunities.**

Priorities include:

- Provide job training for low- and moderate-income individuals. Build the capacity of contractors in order to provide skilled jobs and meet housing development needs. Use economic development strategies to increase living wage jobs.

**Theme #5: Support health and well-being.**

Priorities include:

- Ensure health care access. Provide connections to recreation activities that promote physical and mental well-being. Eliminate food deserts and expand food access. Provide chemical dependency and mental health treatment, with a particular need for residential treatment.

**3. Evaluation of past performance**

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Each program that is funded with CDBG, HOME and ESG funding is monitored annually to make sure that the number of people who were going to be served for a specific need were met. If not, then that program is evaluated to determine if the need for that the program is still a priority or if that need is being met elsewhere due to other new funding sources or if the community dynamics have changed and the demand for a specific need has decreased. Every year, there are public input sessions to gather input on community needs to evaluate if a need should be a goal for this plan. A description of the goals and a description of the public input process is provided in the annual action plan, which is submitted to HUD for review and approval.

#### **4. Summary of Citizen Participation Process and consultation process**

Summary from citizen participation section of plan.

The citizen participation process is outlined in the Citizen Participation Plan and was integral in goal-setting and developing strategies in the plan. The City used a combination of public hearing, newspaper outreach, social media, and an online survey to identify needs in Duluth. The Citizen Participation Plan lists out the public process that the Planning & Development Division utilizes throughout the year. The plan includes the process for the development of the Action Plan. The Citizen Participation Plan can be found online at: <https://duluthmn.gov/planning-development>

As part of the community outreach process, the City Planning & Development Division staff used multiple outreach strategies to engage community members and the organizations that serve our community. Division staff consulted with nonprofit and service providers who work on issues of healthcare, housing, homelessness, and education, and other community issues. An online survey was held from September 4 to September 15, 2020; along with a Community Input Session on September 22, 2021.

The Planning & Development Division published the annual Housing Indicator Report, which is an analysis of the housing market in Duluth.

The Community Development Committee reviews the draft Action Plans and funding recommendations at public meetings. These documents are made available for 30-day public comment period from December 18, 2020 to January 19, 2021. All public comment received during the comment periods and at the meeting was presented to the CD Committee and is referenced in the minutes. The CD Committee held their public input session on the draft Action Plan recommendations on January 5, 2021.

#### **5. Summary of public comments**

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

All of the comments received during the public comment period and at the Community Development Committee meetings are referenced in the meeting summary from the public hearings.

#### **6. Summary of comments or views not accepted and the reasons for not accepting them**

The comments were related to funding requests, which will be considered.

#### **7. Summary**

The Annual Action Plan, one of five annual plans, outlines how the federal Community Development resources will be allocated in FY 2021. Each year after that an Annual Plan will be completed to communicate how these funds will be allocated to meet the objectives identified in the Consolidated Plan.

The Annual Action Plans will also include a section that evaluates the community's performance towards meeting the objectives outlined in the Consolidated Plan, meaning how well we are achieving progress towards the priority needs of the City of Duluth.

## **AP-10 Consultation – 91.100, 91.200(b), 91.215(I)**

### **1. Introduction**

The City of Duluth is dedicated to developing an annual action plan that is effective in meeting the needs of low income & moderate income people within the city.

An advisory group of community volunteers assists with reviewing community development strategies by providing direct input into the planning and prioritization process. That group is the Community Development Committee (CD Committee). The CD Committee is made up of nine communitywide representatives. The CD Committee is advisory to the City Administration and the City Council.

The participation process for the Community Development Program is detailed in the City of Duluth Citizen Participation Plan, 2020 publication. In general terms, the process consists of two tiers. The CD Committee helps to provide community perspectives on the Community Development Program and oversee the funding process. Secondly, the city uses a public hearing and community needs survey.

The Planning and Development Division, as the lead entity, strives to involve many partners in addressing community development needs and issues. There are many other participants involved with housing and community development issues and programs in Duluth. As the lead agency, the Division strives to achieve close cooperation among these other entities.

### **Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))**

The Planning and Development Division works closely with the Housing and Redevelopment Authority of Duluth (Duluth HRA) which is the local public housing administrator for Duluth. The City participates in a group called the Affordable Housing Coalition, which is made up of numerous agencies in Duluth that provide housing and homeless services and programs to those in need. This group meets regularly to discuss issues and gaps in service, as well as, works to develop strategies to assist those in need of housing assistance and other needs. This group is comprised of City and County officials, as well as housing agencies: Duluth HRA, One Roof Community Housing and Ecolibrium3, as well as supportive housing providers: Salvation Army, Center City Housing, Loaves and Fishes, Life House, Lutheran Social Services, MACV; and homeless shelters: CHUM and Safe Haven, and service providers such as Human Development Center, Damiano, American Indian Community Housing Organization, Community Action Duluth. City staff attends these meetings with the St. Louis County Public Health and Human Services staff.

**Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.**

The City of Duluth is located in the St. Louis County Continuum of Care (COC). The City of Duluth has a very interactive role with the COC, in reviewing the community needs for the whole populations as well as the sub populations and using this information in developing a prioritization process based on the annual needs and current data and performance measures to align the funding to best address the needs of homeless persons and persons at risk. The City is also actively works with the COC to implement the 2018 St. Louis County Five-Year Plan to End Homelessness.

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS**

The City of Duluth continues to work closely with the St. Louis Continuum of Care (CoC) on providing the ESG guidance, which contains specific protocols for prioritizing services to eligible households. As part of the CoC several committees have been developed that have representation from the City, County, service providers, and clients. These committees and their duties are as follows.

Heading Home St. Louis County Leadership Council- Establishes annual targets through strategic planning, decides final funding and reallocation, review and ranks projects, and monitors program performances.

Data/HMIS Committee- Regularly review system level data and identify additional internal and external data sources. Oversees and monitors HMIS data collection and data quality and resolve any issues between provider (s) and Data Collection.

Evaluation and Planning Committee – Reviews the annual Point in Time Count, performance measures, HMIS data, and City and County ESG annual reports (CAPERS) and makes recommendations to the leadership council and identify strategies not yet in place, revisit and update the objective achievements and plan of action.

Other ad-hoc workgroups have been created to address Coordinated Entry, communication of priorities, and prevention targeting.

## Expected Resources

### AP-15 Expected Resources – 91.220(c)(1,2)

#### Introduction

The City of Duluth received over \$3,000,000 in funds from the Department of Housing and Urban Development (including CDBG, HOME, and ESG). The city has prioritized projects and activities in this plan and will work to disperse the funds to meet the goals and objectives identified.

#### Anticipated Resources

Table 5 - Expected Resources – Priority Table

**Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied**

CDBG, HOME, and ESG funds will help to leverage over \$20,000,000 annually (\$100,000,000 over the 5-year plan) of other federal, state, and local funds. Matching requirements have been regularly met and the city does not anticipate having difficulty in satisfying these requirements. For the 2021 Program Year, CHDO funds will be spent on One Roof's Acquisition-Rehab-Resale project, specifically the budget for this project will include \$352,928 in CHDO Funds, \$17,000 in HOME PI funds, and the following grants: \$150,000 from Minnesota Housing Finance Agency (MHFA), \$180,000 from Federal Home Loan Bank, and \$1,320,000 from Greater Minnesota Housing Finance (GMHF) therefore the 25% match requirement for CHDO will be met.

**If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

Although not already identified, publically owned land is always considered as a way to reduce costs for new housing developments. The city of Duluth regularly considers using tax forfeited properties that Saint Louis County manages. These lands range from homes that are in need of rehab, to severely damaged/condemned buildings, to open lots. Often the city attempts to work with the county to remove the blighted structures and redevelop the land.

**Discussion**

The City continues to work with area funders, federal, state, and local funders to be able to leverage the federal funds that are received. While local private Foundations experienced a period of reduced funding availability, projections show those amounts to increase. Individual organizations and collaborations have improved at seeking out new and alternative funding sources, in order to maintain service levels within the city. The city also continues to encourage cost-saving-collaborations within the housing, public service, and economic development areas.

## Projects

### AP-35 Projects – 91.220(d)

#### Introduction

The city relies mostly upon non-profit and neighborhood organizations to carry out the goals of the Consolidated Plan and Annual Action Plans each year. Through an open application process the City of Duluth reviews and evaluates applications as to how they fit in with the plans. Projects are then funded and the city oversees progress to make sure the goals and objectives of the city are being met.

## Affordable Housing

### AP-55 Affordable Housing – 91.220(g)

#### Introduction

The city of Duluth works to provide affordable housing in a multi-faceted manner through its policies and entitlement funding goals. The City will utilize sub-recipients to provide services for homeless people to help them obtain stable and affordable housing as well as assist low- and moderate-income populations to acquire or maintain affordable housing through rental assistance, building new units, and rehabbing existing units.

<b>One Year Goals for the Number of Households to be Supported</b>	
Homeless	5,267
Non-Homeless	141
Special-Needs	557
Total	5,965

#### Discussion

Homeless service providers in Duluth work to provide comprehensive services including access to stable, affordable housing options for those currently on the street or with the possibility of experiencing homelessness. Sub-recipient agencies working together to provide these services include: , Churches United in Ministry, the Damiano Center, Safe Haven, Salvation Army, MACV Duluth, and Center City Housing Corporation.

Sub-recipient agencies that are working to either rehab existing housing or build/provide new affordable housing programs to low income populations include One Roof Community Housing, Center City Housing Corporation, Ecolibrium3, and the Duluth HRA.

The Duluth HRA provides a rental assistance program through the City’s HOME funds, which will support approximately very low income households using tenant based rental assistance. This program

combined with the ESG Prevention and Rapid Rehousing program provides rental assistance.

## **AP-60 Public Housing – 91.220(h)**

### **Introduction**

The Duluth Housing and Redevelopment Authority manages approximately 1,008 public housing units and 1,453 Section 8 Housing Choice Voucher units.

### **Actions planned during the next year to address the needs to public housing**

The City of Duluth does not expect to spend any CDBG, HOME, or ESG funds to address the needs of public housing beyond funding the HRA's tenant based rental assistance program. The HRA is exploring the various repositioning options allowed by HUD to move public housing to a more sustainable and reliable source of funding; thus, preserving public housing assets. These options include Section 18 disposition of scattered sites, RAD-PBRA and/or RAD-PBV for high-rise buildings, and Section 22 Streamlined Voluntary Conversion for remaining units not eligible for other types of conversion. The HRA will continue to monitor expansion and addition of repositioning options offered by HUD.

There are extensive waitlists for both the Section 8 Housing Choice Voucher Program and public housing. The HRA will continue to work at diligently processing applications from these lists. Periodically the HRA will send out letters to all households on the list and ask them to respond that they want to remain on the list (some may have housing already, some may have moved out of the area, etc.), to maintain efficiency in addressing Duluth's pressing housing needs.

### **Actions to encourage public housing residents to become more involved in management and participate in homeownership**

The HRA has a resident who is commissioner on the HRA board in addition to a resident advisory board for all public housing and resident clubs at each of the six high rise buildings. The Duluth HRA also has a Family Self Sufficiency Program that receives funding from HUD for FSS activities, which include the option to set up an escrow for future home ownership.

### **If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance**

NA

### **Discussion**

The city of Duluth works closely with the Duluth HRA to assure that the Public Housing policies and strategies are aligned with the cities strategies in order to best meet the need for housing in Duluth.

## **AP-65 Homeless and Other Special Needs Activities – 91.220(i)**

### **Introduction**

St. Louis County (SLC) is one of many Continuum of Care (CoC) regions in Minnesota. Duluth is geographically located at the southern end of St. Louis County. There are two entitlement communities in SLC, the City of Duluth and St. Louis County.

City of Duluth has long history of working closing with SLC and homeless housing and service providers to address issues that impact persons who are homeless or at-risk of becoming homeless.

### **Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including**

#### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The City of Duluth is part of the St. Louis County Continuum of Care (CoC). The CoC coordinates with homeless providers and has developed a collaborative system to reach out to homeless. An integral part of the system is the Coordinate Access. The service providers have agreed under Coordinated Entry to use the Service Prioritization Decision Assistance Tool (SPDAT) as a common assessment tool for all homeless persons. As part of the assessment all individuals and families looking to receive housing assistance will first undergo a pre-screen administered by 2-1-1 United Way. This first step will help with prevention and diversion and refer those in need to emergency shelter. The client will then be administered the Vulnerability Index (VI) SPDAT at determined entry points. This is a quick, condensed version of the SPDAT and will give the recipient a acuity score which will determine the appropriate housing solution. The score will assess what program the individual best fits and puts the individual on a wait list if not available units are available. The most vulnerable individuals receive priority for housing. Once matched with the appropriate housing, the client's case manager will administer the SPDAT. The SPDAT measures a variety of issues that can effects a persons stability. The categories can be tracked over time as the SPDAT is administered every 3 months or so. The SPDAT can be inputted into HMIS. This will allow service providers to track stability much more effectively and show with data the progress an individual or family is making toward housing stability.

#### **Addressing the emergency shelter and transitional housing needs of homeless persons**

Through the Coordinate Entry system persons experiencing a housing crisis will be able to be provided with a housing solution efficiently and effectively. The transitional housing providers, emergency shelters, permanent supportive housing providers, and public housing providers have collaborated on creation of the Coordinate Access System. In doing so the agencies also worked to developed goals and standards for each part of the system for which a client may utilize. For example, in shelter the goal is to reduce bed nights or average stay in shelter before housing. If a person is in transitional housing the goal

is to place the client into permanent housing or at least keep the person in transitional housing for 6 months rather than the street. If the person is in a permanent housing situation such as permanent supportive housing or public housing the goal is keep that person housed for 6 months. Meanwhile during all stages providers will be working to getting their clients stable income and employment, access to health services, etc.

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

In 2021, the City of Duluth will fund Housing, Stabilization, and Coordinated Entry for people who are or recently have been homeless. This will include the work of six agencies that include; Churches United in Ministry, Life House, Salvation Army, Center City Housing Corporation, Safe Haven, and MACV-Duluth.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.**

The discharge plan outlines transition process steps, based on an evidence-based model called Critical Time Intervention, a standardized assessment tool that is used by all discharging entities upon client admission to identify those at risk of homelessness, specific services to be offered to all clients and additional services offered to at-risk clients. The Discharge Plan also outlines the roles and responsibilities of the collaborative partner agencies, including coordination, information sharing, staffing patterns for institutional-based and community-based staff, and training.

## **Discussion**

The City is actively working with community partners for new ideas/innovations to assist people facing homelessness.

## **AP-75 Barriers to affordable housing – 91.220(j)**

### **Introduction:**

As the housing market has recovered from previous recessions, rents and home sale prices are rising, but increases in income are not keeping up resulting in higher poverty rates and more cost-burdened households. The total number of housing units in Duluth is increasing, but there are still not enough units resulting in a “seller’s market” with competitive and quick home sales, low rental vacancy rates, and increasing rents. Recently and in the coming years baby boomers are retiring in record numbers, leaving positions that have been filled for decades. Employers across the state, including in Duluth, have had to be creative in attracting and retaining employees with competitive benefits packages and flexibility within the workplace.

In recent years the Lincoln Park neighborhood, one of the lowest income neighborhoods in the city, has started to see much needed reinvestment, but appears to have undergone some significant demographic changes since 2015, signifying that this neighborhood has a high displacement risk. Necessary reinvestment in neighborhoods, such as what is occurring in Lincoln Park, has the potential to displace or limit the ability to stay in place for some residents and businesses.

### **Impediments to Fair Housing Choice**

The City reviewed demographic data, collected input from community members and organizations, and researched trends in housing and real estate in order to develop these impediments to fair housing choice. The following are the identified Impediments to affordable housing.

- 1) Exclusionary rental housing practices and policies directed at Section 8 Housing Choice Voucher holders
- 2) Exclusionary rental housing practices and policies directed at persons with criminal histories
- 3) Involuntary displacement and limited housing choice caused by gentrification
- 4) Policies and physical limitations in the built environment

**Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment**

Impediment 4: Policies and physical limitations in the built environment

Strategy 4.1: Conduct a feasibility study that investigates creative tools to incentivize or require some

affordable and/or accessible units in new housing developments.

Strategy 4.2: Continue to make changes to the City's Unified Development Code that address outdated land use and zoning policies, which in turn affect density and mixed income neighborhoods and residential developments.

Strategy 4.3: Explore an alternative rental-licensing program, such as a targeted or tiered system, that addresses rental housing quality, regulatory body and property owner accountability.

Strategy 4.4: Support new or existing rehabilitation programs that focus on healthy homes and retrofitting for ADA accessibility. Implement these programs in a variety of neighborhoods throughout Duluth.

#### **Discussion:**

As outlined in the Analysis of Impediments to Fair Housing Choice (AI), the City has taken steps to bring to light the legacies of historical discriminatory housing policies and is committed to addressing the modern-day effects of those policies and practices. Working with community partners, the City will use the Fair Housing Plan in the AI to track and address fair housing issues over the next few years.

## **AP-85 Other Actions – 91.220(k)**

### **Introduction:**

The city of Duluth has identified a number of actions that will address obstacles to meeting underserved needs, foster and maintain affordable housing, reduce the number of poverty-level families, develop institutional structures, and enhance coordination between public and private housing and social service agencies. Many of these actions were identified in the 2035 Imagine Duluth Comprehensive Plan and are in the process of being implemented.

### **Actions planned to address obstacles to meeting underserved needs**

Among with the information in the Action Plan, the City adopted several actions steps to address this issue:

- Reuse previously developed lands, thereby allowing people to live close to services
- Support existing economic base and growth sectors, thereby increasing employment opportunities
- Promote reinvestment in neighborhoods, this includes addressing the digital divide
- Reinforce the place-specific, including increasing visibility of different cultures
- Creating and maintain connectivity, promoting non-vehicular transportation
- Encouraging a mix of activities, uses, and densities
- Supporting private actions that contribute to the public realm
- Taking action that enhance the environmental, economic, and social well-being of the community. The City recently adopted an Earned Safe and Sick time policy requiring employers to provide sick time to

employees

- Working with education systems in the community to increase connectivity and programs
- Creating efficiencies in delivery of public services
- Developing a healthy community
- Integrating fairness into the fabric of the community

### **Actions planned to foster and maintain affordable housing**

This Action Plan is providing funding to programs that foster and maintain affordable housing, in addition the City is working to:

- Increase density in and around the designated Core Investment Areas
- Provide affordable, attainable housing opportunities, including projects that receive City funding such as TIF, are required to have an affordable housing component
- Prioritize inclusive housing policies to reflect the city's social, cultural, economic and historic diversity and development patterns
- Improve the quality of the city's housing stock and neighborhoods
- Expand the cohesiveness of "One Duluth" by expanding a variety of housing opportunities throughout the city while maintaining unique community characteristics within distinct individual neighborhoods
- Working with other local and state agencies on funding affordable housing
- Working with MN Housing to maintain affordability in existing projects, aka Preservation Projects
- Actively looking for areas for new affordable housing

### **Actions planned to reduce lead-based paint hazards**

City of Duluth policy requires all rental and homeowner rehabilitation programs and projects receiving federally funded assistance to coordinate with the Duluth HRA for lead assessment, testing and clearance services. Given the age of Duluth's housing stock that predicts 68% contains lead-based paint, the concentration of low- and moderate-income households in less expensive older units, and the past experience of agencies implementing rehab programs, it is highly probable that all, or nearly all,

rehabbed units will contain potential lead hazards.

### **Actions planned to reduce the number of poverty-level families**

This Action Plan is providing funding to programs that provide job training and child care, in addition the City is working on other strategies, including:

-Investing in people to increase employee's skills, ensuring workforce availability for all employers, and promoting income self-sufficiency. This includes the City providing different pathways for CareerForce and Workforce

-Fostering growth of existing employers and strategically recruiting new employers to Duluth, to increase employment opportunities

-Embrace the Outdoors as an Economic Engine and Source of Community Wealth- this provides additional employment opportunities as well as social/physical/mental health to help improve people's lives

-The City adopted a Community Benefits Policy and Business Subsidy Policy when City funds are being used

### **Actions planned to develop institutional structure**

This City has a number of commissions to address traditional institutional structure that has not been all inclusive. These commissions develop policies and provide feedback on legislation. These commissions include: Indigenous Commission, African Heritage Commission, Human Rights Commission, Commission on Disabilities, and the Citizen Review Board.

### **Actions planned to enhance coordination between public and private housing and social service agencies**

City Staff are members of many community oriented groups, include the Affordable Housing Coalition, COC Governance Board, Census Outreach Committee, and local neighborhood groups.

### **Discussion:**

The City of Duluth adopted the Imagine Duluth 2035 plan on June 25, 2018 which contains many provisions to address these issues. Every year the City produces a "report card" of the implementation steps to review progress.

NA

### **Emergency Solutions Grant (ESG) Reference 91.220(l)(4)**

1. Include written standards for providing ESG assistance (may include as attachment)

Yes, See Appendix: ESG Written Standards.

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The CoC Coordinator with homeless providers and City staff developed a Coordinated Assessment/Entry System. The service providers ha use the Service Prioritization Decision Assistance Tool (SPDAT) as a common assessment tool for all people who are or about to experience

homeless. As part of the assessment all individuals and families looking to receiving housing assistance will first undergo a pre-screen administered by 2-1-1 United Way. This first step will help with prevention and diversion and refer those in need to emergency shelter. The client will then be administered the Vulnerability Index (VI) SPDAT at determined entry points. This is a quick, condensed version of the SPDAT and will give the recipient a acuity score which will determine the appropriate housing solution. The score will assess what program the individual best fits and puts the individual on a wait list if not available units are available. The most vulnerable individuals receive priority for housing. Once matched with the appropriate housing, the client's case manager will administer the SPDAT. The SPDAT measures a variety of issues that can effects a persons stability. The categories can be tracked over time as the SPDAT is administered every 3 months or so. The SPDAT can be inputted into HMIS. This will allow service providers to track stability much more effectively and show with data the progress an individual or family is making toward housing stability. The City, County and Duluth HRA jointly pay and supervise a Coordinated Entry Coordinator who oversees the list of available housing opportunities and the people on the waiting list to look for the best matches.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

The City Community Development Committee uses the same process to allocate CDBG, HOME and ESG funds, based on an annual open application process, that is open to non-profit and community organization. During the process, the organizations submit applications describing how their use of ESG funding would help to reduce the number of people experiencing homelessness or provide servcies for those people who are or about to become homeless.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The Community Development Committee seeks out homeless or formerly homeless individuals to serve on the committee. The Committee has regularly had at least one person who has experienced homeless appointed, and participates in the policy and funding decisions. Also the COC's Heading Home Saint Louis County Leadership Council has people who have experienced homeless and this group helps to develop the priorities used for ESG and COC funds.

5. Describe performance standards for evaluating ESG.

Yes, See Appendix: ESG Written Standards.
