

Imagine Duluth 2035, Forward Together is an update to our Community's 2006 Comprehensive Plan. This plan is a critical roadmap for the future development of Duluth. As we work together planning our city, we need to shape our future in a way that is equitable and sustainable to protect natural resources and provide recreational opportunities. We need to plan for continued economic development and growth, with more people and more jobs, while retaining the character of our neighborhoods. We need to transform our systems so that all of our people have fair opportunities and just outcomes. We need all areas of our City to be safe, healthy, affordable and connected. We need to ensure that our city will be resilient to climate change.

Imagine Duluth 2035 will affect where and how we live, work, move and play. Participation is a crucial part of this process. To build a stronger, healthier, more fair Duluth, we need to hear from all of you. Whether you are a resident, a business owner, a developer, or anyone else with an interest in growing our city the right way, the City will have several opportunities for community input and involvement. I encourage all residents to share their ideas for a healthier more inclusive Duluth.
