Addendum 1
Solicitation 24-99549
Design Services Marten Interpretive Areas

This addendum serves to notify all bidders of the following changes to the solicitation documents:

The following questions were asked and are answered in *italics*

1. On the Story Poles, will the successful bidder be responsible for providing content for the four each 11" X 17" panels? Or do we merely provide CAD directions to build and install the story poles with content provided by others?
    a. *Content for the four interpretive panels that will be placed on the story poles will be provided as PDFs. The successful bidder will need to provide CAD specifications for fabrication and installation of the story poles including specifications for mounting of the four panels.*
2. On the Story Poles, do you want the successful bidder to provide dimensioned instructions for the steel animal silhouettes as well?
    a. *Yes, the animal silhouette dimensions and specifications will need to be provided as well.*
3. Is there existing vector-based production artwork for the decorative elements and SS animal cut-outs on the story poles?
    a. There are PDFs of the interpretive panels. No, we do not have any artwork details for the decorative elements or animal cut-outs.
4. Some of the details of the story poles seem improperly specified. Are you open to any redesign of the story poles?
    a. Yes, we are open to design of the story poles as long as it remains consistent with the concepts provided in the Interpretive Plan.
5. Are the freestanding stainless- steel animals (i.e., the ones that are NOT attached to the story poles) part of this same scope?
    a. No. The freestanding animals are not a part of this project's scope.
6. The RFP Specifies 7 story poles, but the drawing on page 39 shows 8 and the Project Roster on pages 108-110 shows a total of 9. Will there be additional story poles for the additional Dakota-related interpretive panels yet to be designed?
    a. Yes. Increase to design of all 9 story poles. The Dakota-related interpretive panels would be incorporated on either one of the 9 story poles or on the freestanding stands.

Please acknowledge receipt of this Addendum by including a copy of it with your proposal. The pages included will not count toward any page limitation, if any, identified in the RFP.
